Prezydent Wrocławia

dr Piotr Czarnecki

dr Enrico Carità

dr Joaquim Casanas

Dear Members of the FESSH Congress Committee,

It is with great pleasure, that I express the intent and full support of the City of Wrocław to host the international FESSH Congress in 2030.

Wrocław, with its modern conference infrastructure, rich cultural offerings, and unique atmosphere, represents an ideal location for global scientific events. As a city open and welcoming to visitors, we are committed to full cooperation in the organization of the congress, providing logistical support and access to selected elements of the city's infrastructure that can contribute to the success of the event.

We are confident, that hosting the FESSH Congress in Wrocław, will offer participants an exceptional scientific and networking experience, while also allowing them to explore the city's cultural and historical richness, which blends modernity with tradition. The City of Wrocław and its institutions, are ready to work closely with the Organizing Committee, ensuring professional support and all necessary assistance for the smooth running of the congress.

I am convinced, that choosing Wrocław as the host city for the FESSH Congress in 2030, will bring mutual benefits- for the medical community, as well as for establishing our city as a leading international conference destination.

With sincere regards,
